Scholarships

Every year CASS Europe offers one full scholarship per program per intake to cover the cost of tuition. In return recipients are required to complete a specific (mostly administrative) task for the school. In addition, the school provides partial scholarships of 1 000 – 4 000€ to cover part of the overall tuition fees. Evaluation criteria for both types of scholarships are based on a combination of need and academic achievement. As competition for these scholarships is keen you are advised to apply as early as possible. Students are also advised to enquire with their various governments about possibilities of scholarships from their home countries. The European Union, through cooperative agreements with various countries around the world, also provides scholarship opportunities to deserving students. Applicants are advised to enquire with their respective governments for further information.
